

SYMANSIS™

Product Data Sheet

Compound Name

SNS-314

Structure

CAS Number

[1057249-41-8]

Chemical Formula:

 $C_{18}H_{15}ClN_6OS_2$

Molecular Weight:

430.93

Background information

Mode of Action

Aurora kinases inhibitor

Predominant Target(s)

AUR

Published Activity (not validated)

For the treatment of patients with advanced solid tumors

Development stage

Phase I clinical trial
